THE TOLSTOY DEFENSE

Drama, detective, bio **2018** Russia **118'**

The film is a heartbreaking and tragic real story, connected to Leo Tolstoy. An innocent soldier was accused of a crime and he is going under military tribunal, and can be executed. Count Leo Tolstoy decides to defend the soldier who was not guilty.

It is a film about the choice each of the characters has to make. How easy it is to cross the line between good and evil, and how this line inevitably turns out to be the border between freedom and non-freedom, between life and death. This film is about the power of some minor choices. And, of course, about collapsing of a human life into the legal chasm which mirrors the moral condition of the society.
